PROFESSIONAL SUMMARY

Results-driven Computer Science graduate (First Class Honours) and certified **ITIL® 4 Foundation** professional. Hands-on experience in L1/L2 technical support, Active Directory administration, Windows Server management, and IT Infrastructure operations. Proven track record in supporting 300+ end-users, managing 1,000+ IT assets (CMDB/ITAM), and maintaining a 98%+ SLA resolution rate. Skilled in hardware/software troubleshooting, basic network connectivity, and leveraging Power BI for operational IT reporting.

CORE COMPETENCIES

- **IT Operations & Technical Support:** L1/L2 User Support, Hardware Deployment & Rollout, Peripheral Troubleshooting, Software Installation, System Access & Active Directory Concepts.
- **IT Infrastructure & Asset Management:** CMDB Configuration & Auditing, IT Asset Management (ITAM), Asset Lifecycle Tracking, Configuration Items (CIs), System Reliability.
- **IT Service Management (ITSM):** ITIL® 4 Framework, Incident Management, Service Desk Operations, Service Level Agreements (SLA Monitoring), Change Management, Ticketing Workflows.
- **Systems, Data & Reporting:** Windows Server Basics (AZ-800 in progress), SQL Queries, Power BI Operational Dashboards, KPI Reporting, Technical Documentation.

PROFESSIONAL EXPERIENCE

Service Delivery Officer (Tamheer) | Perfect Presentation (2P) — Madinah, Saudi Arabia

Feb 2026 – Aug 2026

- **IT Infrastructure & Asset Management:** Led the end-to-end discovery, auditing, and physical reconciliation of 1,000+ Enterprise IT assets across client projects, building a centralized CMDB and ensuring system availability.
- **Technical Support & Hardware Rollout:** Executed hardware replacement and equipment setup initiatives for 300+ end-Users, providing hands-on L1/L2 deployment, software configuration, and documentation compliant with standard Procedures.
- **IT Operations & SLA Management:** Developed dynamic executive Power BI dashboards to track core ITSM KPIs (incidents, Service requests, change requests), helping maintain a 98%+ SLA compliance rate.
- **Service Support Optimization:** Analyzed service desk incident logs and user requests to identify operational bottlenecks, Streamlining support team workflows and reducing average incident resolution time by 15%.
- **Data-Driven Executive Reporting:** Engineered weekly and monthly IT performance reports for leadership using key ITSM Metrics, enabling data-informed decision-making and continuous service delivery tracking.

Data Analyst (Project Contract) | Madinah Development Authority — Madinah, Saudi Arabia

Jan 2025 – Jan 2026

- **Strategic Risk & Data Analysis:** Conducted comprehensive data analysis and risk assessments on **10+ complex government datasets**, mitigating operational risks and optimizing decision-making processes by **20%**.
- **Requirements & Systems Alignment:** Collaborated with cross-functional IT and business teams to define project requirements, aligning technical capabilities with organizational goals.
- **Executive Decision Support:** Engineered interactive Power BI dashboards and predictive models, translating complex technical metrics into strategic recommendations for leadership.

KEY IT PROJECTS & MANAGED SERVICES

Enterprise Managed IT Services | Perfect Presentation (2P)

- **Taibah University Managed IT Services:** Spearheaded end-to-end IT asset discovery and CMDB configuration for **1,000+ CIs** across **15+ university departments**, establishing automated asset relationships and reducing manual tracking Discrepancies by **30%**.
- **Madinah Region Municipality Managed IT Services:** Managed end-user hardware replacement, equipment exchange, and asset registration for municipal operations (improving log accuracy by 25%), while monitoring service desk ticketing data to sustain high SLA compliance.

TECHNICAL SKILLS

- **Core IT Specialist & Technical Support:** L1/L2 Technical Support, Hardware Deployment & Rollout, System & Peripheral Troubleshooting, Windows 10/11 OS Administration, User & Access Management (Active Directory Concepts, Password Resets), Software Installation, Printers & Peripherals, **Network & Connectivity Basics (LAN, WAN, TCP/IP, DNS, DHCP, VPN Support)**, Backup & System Recovery.
- **ITSM & Infrastructure Operations:** ITIL® 4 Framework, Configuration Management Database (CMDB), IT Asset Management (ITAM), Service Desk Operations, Ticket & Incident Management, Change Management, SLA Compliance & Tracking, Configuration Items (CIs), Asset Lifecycle Management, Service Desk Tools (iTop, Ivanti, PRTG).
- **Systems, Data & Reporting:** Windows Server Basics (2019/2022 - AZ-800 Lab), Power BI, DAX, Power Query, Data Modeling, Advanced Excel, SQL, SQL Server, Operational Dashboards, KPI Reporting, Technical Documentation.
- **Programming & Tools:** Python (Data Analysis), HTML, CSS, JavaScript, PHP, Microsoft Office Suite.

EDUCATION

Bachelor of Computer Science — First Class Honours (GPA: 3.86 / 4.00)

Umm Al-Qura University | Jun 2020 – Jun 2024

CERTIFICATIONS & COURSES

- **ITIL® 4 Foundation — IT Service Management** — PeopleCert [September 2026]
- **Windows Server Hybrid Administrator Associate (AZ-800,AZ-801)** — (In Progress)
- **Data Analysis Using Power BI** — Tawal Academy [February 2026]
- **SQL for Business Analysis** — Udemy [December 2025]
- **Angular Development** — Tuwaiq Academy [July 2024]
