PROFESSIONAL SUMMARY

Results-driven Computer Science graduate bridging the gap between Data Analytics and IT Project Coordination. Experienced in leveraging Power BI, SQL, and Python to deliver decision-support insights, while optimizing IT service operations (ITSM) and automating workflows to drive efficiency across both government and corporate tech sectors.

EDUCATION

Bachelor of Computer Science (First Class Honor) | Umm Al-Qura University *June 2020 – June 2024*

- **GPA:** 3.86 / 4.00
-

EXPERIENCE

Data Analyst & IT Project Coordinator (Tamheer) | Perfect Presentation (2P) *Feb 2026 – Aug 2026*

- Analyzed ITSM system data (Incidents, Service Requests, and Change Requests) to evaluate operational performance and monitor key performance indicators (KPIs).
- Coordinated an enterprise hardware exchange project, managing asset lifecycle data, employee handovers, and documentation for device de-allocation and new allocations.
- Automated the asset tracking workflow, transforming a manual process into an automated system that minimized data entry errors and enhanced operational efficiency.
- Generated weekly and monthly performance reports, delivering actionable insights to management regarding ticket volumes and team performance.
- Transitioned to support technical project management and data operations, bridging the gap between IT project coordination and data analysis.

Data Analyst (Project Contract) | Madinah Development Authority *Jan 2025 – Jan 2026*

- Contributed to a confidential government project focusing on data analysis, risk assessment, and decision-support reporting.
- Collaborated with cross-functional teams to gather requirements and define project objectives, ensuring alignment between system capabilities and business needs.
- Analyzed complex datasets to identify trends and insights, supporting informed decision-making for executive management.

- Developed interactive reports and visualizations to communicate technical findings to non-technical stakeholders.
 - Maintained high standards of data governance and confidentiality while handling sensitive government datasets.
-

TECHNICAL PROJECTS

Surgical Operations Management System (SOMS) | (Graduation Project)

- **Systems Analysis:** Conducted full lifecycle analysis, including **Functional/Non-Functional requirements** and **UML design** (Class & Sequence diagrams).
 - **Development:** Built a full-stack system using **PHP, Python, HTML, CSS, and JavaScript** with Role-Based Access Control (RBAC).
 - **Data & Databases:** Designed and managed a **Relational SQL Database** and developed an integrated **Dashboard** with charts for operational insights.
-

SKILLS

- **Data Analysis & Visualization:** Power BI, Microsoft Excel, Tableau (Learning), Data Cleaning & Interpretation.
 - **Systems Analysis:** Requirement Gathering, SDLC, UML Modeling, Workflow Design , ITSM & Automation.
 - **Programming & Databases:** Python (Data Libraries), SQL Database Management, PHP, JavaScript.
 - **Soft Skills:** Analytical & Critical Thinking, Problem-Solving, Team Collaboration, Coaching & Mentoring.
-

CERTIFICATIONS & COURSES

- **Microsoft Certified: Power BI Data Analyst Associate** – (In Progress).
- **SQL for Business Analysis** – Udemy.
- **Data Analysis using Power BI** – Twal Academy.
- **Angular Development** – Tuwaiq Academy.
